President's Statement

Traction shows a result of MSEK -205 (198) for the third quarter, which corresponds to a decrease in net asset value of approximately 5 percent. The entire decline in net asset value is explained by the active listed holdings, which burdened the result with MSEK 216, corresponding to a return of -15 percent. Traction's financial investments contributed positively by MSEK 12, of which listed shares MSEK +4 (+1 percent) at the same time as the Stockholm Stock Exchange generally decreased by approximately 2 percent.

For the nine-month period, the result is MSEK -593 (858), corresponding to a decrease in net asset value of approximately 14 (+30) percent adjusted for dividends paid.

In addition to focusing on our existing holdings, Traction's ambition is to take advantage of the business opportunities that may arise in a generally weaker and uncertain global climate.

Transactions with closely related parties

There have been no transactions between Traction and closely related parties that have significantly affected the Group's and the Parent Company's financial position during the period. There were the usual transactions between wholly and majority owned companies in the Traction Group, including loans, interest charges, repayments, dividends/Group contributions and some charges for services provided.

Risks and uncertainty factors

Traction's significant risk and uncertainty factors include business risks in the form of exposure to certain industries, or an individual holding, as well as dependency on individual key persons in the companies in which Traction has an ownership interest. In addition, there are financial risks, which primarily consist of price risks, i.e. the risk of a change in value of a financial instrument due to changes in share prices, derivatives, bonds, foreign exchange rates or interest rates. In addition to the risks described in Traction's Annual Report in general by reason of the Company's business orientation, specific reference can be made to the Report of the Board of Directors and accompanying notes for a more detailed discussion of the Group's

and the Parent Company's risk exposure and risk management procedures. Beyond that, no additional significant risks are deemed to have been added.

Accounting policies

This interim report for the Group has been prepared in accordance with IAS 34 - Interim Financial Reporting and applicable provisions of the Swedish Annual Accounts Act. The interim report for the Parent Company has been prepared in accordance with the Swedish Annual Accounts Act. Traction is an investment company in accordance with IFRS 10, which means that Traction applies the statutory exceptions to consolidation of subsidiaries.

In all other respects the same accounting policies and calculation methods have been applied as in the most recent annual report. Comparative data refer to the corresponding year-ago period, except in the case of balance sheet items and liquidity metrics which refer to the prior year-end.

Fair value valuation of financial instruments

Level 1: According to prices quoted in active markets for the same instrument

Level 2: Based on directly or indirectly observable market data not included in level 1

Level 3: Based on input data not observable in the market.

Valuation of Level 3 Financial Instruments

Valuation of unlisted holdings is made based on International Private Equity and Venture Capital Valuation Guidelines as developed and published jointly by risk capital organisations EVCA, BVCA and AFIC. For directly owned investments, an overall assessment is made to determine which valuation method is appropriate for each individual holding. Taken into account will be whether any financing or transaction "at armslength distance" has been made and an evaluation is also made by applying relevant multiples to the company's key financial indicators from a selected group of similar companies, less an adjustment for, for instance, difference in size between the company in question and the group of comparable companies. In cases where there are other methods that better reflect the fair value of an individual holding, such methods are used which means that individual holdings may be value by

other than the methods described above. All level 3 assets consist of shares in unlisted companies and are valued in accordance with the following valuation methods and non-observable data used for determining the carrying value. The data in the table below represent a selection and is therefore not all input data used in the valuation.

EBIT multiples: 5 - 9

Revenue multiples: 0.5 - 3.0

Net asset valuation: Established net asset value

Most recent transaction: In the case of recently floated new issue/share offering, the price thereon is taken into account. Higher multiples may also be applied in cases of expected rapid growth.

Definitions and alternative key financial indicators

The definitions and alternative key financial indicators below are significant for the understanding of Traction's operations. Only earnings per share below is defined in accordance with IFRS. All alternative key financial indicators refer to the Group. Calculations are based on exact figures, which means that differences may occur due to rounding.

The Traction Group

Aside from the AB Traction parent company, the Traction Group includes wholly owned subsidiaries managing securities, providing lending, underwriting and consultancy services, mainly to Traction's project companies.

Financial investments

Refers to investments in shares and interest-bearing financial instruments where Traction's ownership is less than 10 percent of the votes, or where Traction does not have an active role by being represented on the Board of Directors. Financial investments are shown in the listing of Traction's net asset value, and in the consolidated and Parent Company balance sheets in this report. A previously active listed holding is recognized as a financial investment on the day when ownership falls below 10 percent of the votes, or from the day when Traction's representative leaves the Board of Director.

Active listed holdings

Holdings in listed companies where Traction's ownership exceeds 10 percent of the votes, or where Traction has an active role by being represented on the Board of Directors. Active holdings are shown in the listing of Traction's net asset value in this report. A holding is recognized as from the day when Traction's ownership exceeds 10 percent of the votes, or from the day when Traction is represented on the Board of Directors.

Unlisted holdings

Wholly and partially owned unlisted companies where any remaining shares typically are held by one or more entrepreneurs or other active owners. Unlisted holdings are companies whose shares typically are owned by one or more entrepreneurs or other active part owners. Unlisted holdings are companies whose shares are not subject to organized daily trading, but not necessarily on a regulated market. Upon listing of an unlisted holding, or upon delisting of a listed company, the holding switches category on the day when the change occurs.

Equity per share/net asset value per share

Equity at the end of the period, divided by the number of shares outstanding on the same day, i.e. $3,569 \times 1,000,000 / 14,789,847 = \text{SEK } 241$.

Net asset value discount

Traction's market value, where unlisted class A shares are given the same value as the listed class B shares at the end of the period, less the net asset value divided by the net asset value at the end of the period in percent multiplied by -1, i.e. $((199.5 - 241) / 241 \times 100) \times -1 = 17\%$

Net asset value/equity

The net of assets and liabilities at market value, which in Traction's case is equivalent to the Traction Group's equity, i.e. MSEK 3,569 as of 30 September 2022.

Change of net asset value per share, adjusted for dividend paid in percent / Return on equity on net asset value per share

Earnings per share, divided by opening equity per share after deduction of dividend paid per share during the period in percent, i.e. for the period: $-40.12 / (286 - 4.85) \times 100 = -14\%$.

Earnings per share before and after dilution

Result for the period after dilution, divided by the average number of shares outstanding during the period, i.e. $-593.4 \times 1,000,000 / 14,789,847 = -40.12 \text{ SEK}$. The number of shares outstanding during the period was unchanged.

Review Report

To the Board of Directors of AB Traction (publ), corporate ID number 556029-8654

Introduction

We have reviewed the summary financial interim information (Interim Report) of AB Traction (publ) as of 30 September 2022 and the nine-month period ending on that date. The Board of Directors and the President is responsible for the preparation and fair presentation of this Interim Report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this Interim Report based on our review.

The focus and scope of the review

We have conducted our review in accordance with International Standard on Review Engagements ISRE 2410 *Review of Interim Financial Information by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. The conclusion expressed based on our review does therefore not have the certainty that a conclusion expressed based on an audit has.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe the Interim Report in all material respects is not prepared for the group in accordance with IAS 34 and the Swedish Annual Accounts Act and for the parent company in accordance with the Swedish Annual Accounts Act.
